COMPANY OVERVIEW

20 YEARS OF INTERNATIONAL EXPERIENCE

Patentarea was founded in 2003 as member of the Marcaria Group which specializes in global brand and digital brand protection.

Patentarea has specialized in international inventions and design patent services. With more than 20 years of experience in the field, we have a network of dedicated IP attorneys, and agents in almost every country with whom we work with. Allowing us to provide personalized solutions to all types of clients, from small entrepreneurs to large technology corporations and IP consultants.

OUR PROCESSES

HIGH QUALITY SERVICE AND FIXED PRICES

Our main purpose is to simplify and streamline the patent process; given its nature tends to be complex in most cases.

Each of our clients has access to their own personal Patent specialist, whose job is to oversee the client's portfolio and manage all communications with highly experienced IP attorneys, who have the knowledge and experience of local procedure and technical aspects of patent law. Providing a worry-free experience for the client.

With Patentarea our clients will find simple and fluid communications, adequate fixed prices informed timely and in advance. And an experienced team fluent in 4 languages: English, Spanish, French and Portuguese.

Our clients can trust that their applications will be handled professionally and will be precisely managed.

OUR SERVICES

PATENT ANALYSIS SERVICES

All analytical services, whether for patentability, novelty searches, and preparation for responses to objections, among others, are provided within our services.

DRAFTING AND TRANSLATION SERVICES

We cover all drafting needs for our clients, including those who need to prepare an entire specification of their invention including proper drafting of claims, to those who only require a professional draftsman for drawings of a design patent application.

INTERNATIONAL PATENT FILING SERVICES

Our clients can apply for patents in any jurisdiction, we have years of proven experience of having applied for patents in almost every country around the globe. We cover from single applications to European validations in all European contracting states, PCT applications and Hague agreement, among others.

PORTFOLIO MANAGEMENT

Our clients can access different patent applications or inventions in one place for better management of their portfolios. We can also take care of assignment of rights, transfers, licenses, due date reminders, to mention a few.

PAYMENT OF FEES

We also offer the payment of official fees, whether they are examination requests, granting fees or renewal fees.
